

Exercise 3-14

1. Continue from Exercise 3-13 or start AutoCAD.
2. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX3-14.
3. Draw a hexagon of your own design using the **LINE** command.
4. Access the **ERASE** command and use a window selection lasso to erase the entire hexagon.
5. Draw a pentagon of your own design using the **LINE** command.
6. Access the **ERASE** command and erase three of the five lines using a crossing selection lasso.
7. Resave and close the file.
8. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
