

## Exercise 15-6

1. Continue from Exercise 15-5 or start AutoCAD.
2. Start a new drawing from scratch or use a template of your choice.
3. Access the **QuickCalc** palette and evaluate the following expressions. Pay attention to how the result of a calculation appears in the input box. Use the value to form additional expressions.
  - A.  $5+3$
  - B.  $8-5$
  - C.  $(3*2)*5$
  - D.  $3*2*5$
  - E.  $30/2+5$
4. Evaluate the following expressions. Clear the input box after entering each expression.
  - A.  $6+2*4$
  - B.  $(6+2)*4$
5. Clear the history area.
6. Close the drawing without saving.
7. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
