

Exercise 16-4

1. Continue from Exercise 16-3 or start AutoCAD.
2. Create your own list of dimension style settings for the type of drafting you perform.
3. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX16-4.
4. Open the **Dimension Style Manager** dialog box, create a new dimension style using a name that describes your list of settings, and change the settings as needed.
5. Resave and close the file.
6. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
