

## Exercise 21-2

1. Continue from Exercise 21-1 or start AutoCAD.
2. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX21-2.
3. Open the **Insert Table** dialog box.
4. Insert an empty table using the **Specify insertion point** option. Set the number of columns to 5 and the column width to 1.5. Set the number of data rows to 3 and the row height to 1.
5. Insert a table using the **Specify window** option. Set the number of columns to 2 and the row height to 1.
6. Resave and close the file.
7. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
