Exercise 7-11

1. Continue from Exercise 7-10 or start AutoCAD.

2. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX7-11.

3. Open the **Polar Tracking** tab of the **Drafting Settings** dialog box and set the increment angle to 30.

4. Use polar tracking to draw a parallelogram similar to the one in Figure 7-25.

5. Resave and close the file.

6. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
