

## Exercise 11-9

1. Continue from Exercise 11-8 or start AutoCAD.
2. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX11-9.
3. Draw two 2.25" squares so that two sides of each square are horizontal.
4. Double the size of one square.
5. Use the **Reference** option to make each side of the other square 3.25" long.
6. Resave and close the file.
7. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
