

## Exercise 20-2

1. Continue from Exercise 20-1 or start AutoCAD.
2. Start a new drawing from scratch or use a decimal-unit template of your choice. Save the drawing as EX20-2.
3. Set up appropriate layers, including a layer for dimensions.
4. Draw and dimension the view shown in Figure 20-3 using an appropriate dimension style. Do not use the **Mtext** or **Text** option or add to the default dimension values while dimensioning.
5. Edit the 1.50 dimension to add the diameter symbol.
6. Edit the 2.250 dimension to place parentheses around the dimension value.
7. Resave and close the file.
8. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
