

Exercise 23-4

1. Continue from Exercise 23-3 or start AutoCAD.
2. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX23-4.
3. Set up the appropriate layers, including a layer for hatch patterns.
4. Use the **CIRCLE** and **SPLINE** commands to create closed original objects similar to those shown.

5. Use the SOLID hatch pattern to fill the objects as shown.
6. Resave and close the file.
7. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
