

# Lesson 6.1

## Special Medical Concerns of Pregnancy

As you are reading, write what you learn about each topic in the appropriate column. Share your responses with the class.

<b>After studying this lesson, you will be able to</b>			
<b>describe three of the most common ART procedures.</b>	<b>recognize possible drawbacks of fertility treatments.</b>	<b>compare and contrast the three different types of multiple pregnancies.</b>	<b>explain two complications of pregnancy and three congenital conditions.</b>
