Exercise 16-1

See act16-01.dwg available on the companion website.

1. Open an existing 3D drawing and display an isometric view.
2. Open the Visual Styles Manager.
3. Select, in turn, each of the image tiles. Note that nothing changes in the viewport.
4. Double-click on each of the image tiles. Note the way the objects reflect the settings of that visual style.
5. Select an image tile and pick the Apply Selected Visual Style to Current Viewport button.
6. Close the drawing without saving.
