Exercise 22-2

1. Open the **Customize User Interface** dialog box.
2. Create a new panel for the ribbon. Name it **My Tools**.
3. Add the custom commands you created in Exercise 22-1 to the new panel **My Tools**.
4. Create a new tab for the ribbon. Name the tab **My Tool Tab**, but have its displayed name be your first name.
5. Close the **Customize User Interface** dialog box and test each of your custom commands.
