

## Exercise 11-7

1. Continue from Exercise 11-6 or start AutoCAD.
2. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX11-7.
3. Design and draw a cylindrical-shaped object similar to the tank in Figure 11-23.
4. Stretch the object to approximately twice its original length.
5. Stretch the object to about twice its original height.
6. Resave and close the file.
7. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
