# Exercise 1-4

1. Open the drawing Pergola_bridge.dwg available on the companion website or open any available, basic 3D drawing.

2. Using the **Visual Style Controls** flyout in the viewport controls, set each of the default visual styles current. Note the resulting display.

3. Right-click on any tab in the ribbon to display the shortcut menu. Turn on and off the display of different panels. When done, redisplay the default ribbon panels.

4. Close the drawing without saving the changes.
