Exercise 11-7

1. Open drawing EX11-5B created in Exercise 11-5.

2. Make a copy of the three components of the ventilating hood. Place the copies to one side of the hood.

3. Explode the copied ventilating hood.

4. Select each of the resulting objects one by one and use the **LIST** command or **Properties** palette to determine which type of object was created.

5. Save the drawing as EX11-7.
