

Exercise 14-14

1. Open drawing EX14-13 created in Exercise 14-13.
2. Perform a mass properties analysis of the solid.
 - A. What is the mass?
 - B. What is the volume?
 - C. What are the bounding box dimensions?
 - D. What are the centroid coordinates?
3. Export an SAT file and name it EX14-14.
4. Begin a new drawing. Import the SAT file named EX14-14.
5. Use the **3DPRINTSERVICE** command to export an STL file and name it EX14-14.
6. Do not save the drawing.
