

Exercise 2-3

1. Continue from Exercise 2-2 or start AutoCAD. If necessary, start a new drawing from the **Create** page of the **Start Tab**.
2. In the **Application Menu**, pick the arrow button next to the **Open** button and then select the **Drawing** option to access the **Select File** dialog box.
3. Pick **Find...** from the **Tools** flyout to access the **Find** dialog box.
4. Find all DWG files in the AutoCAD 2017 folder. Be sure to search all subfolders.
5. Find all DWG files in the AutoCAD 2017 folder that have been modified in the last three months.
6. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
