

Exercise 4-2

1. Continue from Exercise 4-1 or start AutoCAD.
2. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX4-2.
3. Use the **3-Point** option of the **ARC** command to draw an arc similar to the arc shown in Figure 4-9.
4. Use the **Start, Center, End** option of the **ARC** command to draw the arc shown in Figure 4-9. Experiment with holding down [Ctrl] while the **ARC** command is active to reverse the direction of the arc.
5. Use the **Start, Center, Angle** option of the **ARC** command to draw the arc shown in Figure 4-9. Experiment with holding down [Ctrl] while the **ARC** command is active to reverse the direction of the arc.
6. Use the **Start, Center, Length** option of the **ARC** command to draw the arc shown in Figure 4-9. Experiment with holding down [Ctrl] while the **ARC** command is active to reverse the direction of the arc.
7. Resave and close the file.
8. Continue to practice using the **ARC** command by completing act04-02.dwg available on the companion website.
9. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
