# Exercise 5-3

1. Continue from Exercise 5-2 or start AutoCAD.

2. Open the EX5-1 file you saved during Exercise 5-1.

3. Save a copy of EX5-1 as EX5-3. The EX5-3 file should be active.

4. Experiment with making different layers current using the **Layer Properties Manager** and the **Layer** drop-down list in the **Layers** panel on the **Home** ribbon tab. Draw an object each time you change to a new current layer.

5. Experiment with using the command line to search for layers and make layers current. Draw an object each time after making a new layer current.

6. Select an object and change its layer.

7. Repeat step 6, but this time, select more than one object.

8. Resave and close the file.

9. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
