

Exercise 11-5

1. Continue from Exercise 11-4 or start AutoCAD.
2. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX11-5.
3. Draw objects similar to the “Process” objects shown in Figure 11-8, and then use the **BREAK** command to create objects similar to the “Result” objects.
4. Draw two horizontal lines and use the **BREAK** command to break each line at one point, as shown in Figure 11-9.
5. Draw two circles and two arcs and break each as shown in Figure 11-10.
6. Resave and close the file.
7. To continue to practice using the **BREAK** command, complete act11-05.dwg available on the companion website.
8. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
