

Exercise 11-8

1. Continue from Exercise 11-7 or start AutoCAD.
2. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX11-8.
3. Use the **LENGTHEN** command and the following options to draw objects similar to those shown in the given figure numbers. Create two of the original objects shown in the figure. Lengthen one of the objects and shorten the other.
 - **DElta** (Figure 11-26 and Figure 11-27)
 - **Percent** (Figure 11-28)
 - **Total** (Figure 11-29)
 - **DYnamic** (Figure 11-30)
4. Resave and close the file.
5. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
