

Exercise 12-4

1. Continue from Exercise 12-3 or start AutoCAD.
2. Open the EX12-1 file you saved during Exercise 12-1.
3. Save a copy of EX12-1 as EX12-4. The EX12-4 file should be active.
4. Copy the triangle to a location of your choice. Leave a small space between objects.
5. Use the **Displacement** option of the **COPY** command to copy the triangle at a displacement of 2,4.
6. Copy the square from a base point of your choosing using the first point as the displacement. Notice the position of the new square relative to the original.
7. Make four copies of the square anywhere on the screen. The new copies should not touch other objects.
8. Resave and close the file.
9. Continue to practice using the **COPY** and **MOVE** commands by completing act12-04.dwg available on the companion website.
10. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
