

Exercise 13-2

1. Continue from Exercise 13-1 or start AutoCAD.
2. Start a new drawing from scratch or use a decimal-unit template of your choice. Save the drawing as EX13-2.
3. Draw a circle that is 1.5" (38 mm) in diameter with its center at coordinate point 2,3.
4. Use grips to move the circle 2" (50 mm) to the right.
5. Draw a hexagon that is 1.5" (38 mm) across the flats.
6. Experiment with moving the hexagon by using drag and drop and by nudging with snap mode on and off.
7. Resave and close the file.
8. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
