Exercise 13-4

1. Continue from Exercise 13-3 or start AutoCAD.

2. Start a new drawing from scratch or use a decimal-unit template of your choice. Save the drawing as EX13-4.

3. Draw an object similar to the original object on the left in Figure 13-8.

4. Activate grips to make a copy of the object to the right of the original.

5. Scale the first object using a scale factor of 1.5.

6. Use the **Reference** option to scale the second object to a new height of 6.5.

7. Resave and close the file.

8. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
