

Exercise 15-6

1. Continue from Exercise 15-5 or start AutoCAD.
2. Start a new drawing from scratch or use a template of your choice.
3. Access the **QuickCalc** palette and evaluate the following expressions. Pay attention to how the result of a calculation appears in the input box. Use the value to form additional expressions.
 - A. $5+3$
 - B. $8-5$
 - C. $(3*2)*5$
 - D. $3*2*5$
 - E. $30/2+5$
4. Evaluate the following expressions. Clear the input box after entering each expression.
 - A. $6+2*4$
 - B. $(6+2)*4$
5. Clear the history area.
6. Close the drawing without saving.
7. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
