# Exercise 17-7

1. Continue from Exercise 17-6 or start AutoCAD.

2. Start a new drawing from scratch or use a decimal-unit template of your choice. Save the drawing as EX17-7.

3. Set up appropriate layers, including a layer for dimensions.

4. Draw the object shown and create a copy to the right of the original object.

5. Create an appropriate dimension style. Use the **DIM** and **DIMLINEAR** commands to add the dimensions shown to the original object.

6. Use the **DIMLINEAR** and **DIMANGULAR** commands to dimension the copied object.

7. Resave and close the file.

8. To continue practicing using the different dimensioning commands, complete the activity in act17-07.dwg available on the companion website.

9. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
