

Exercise 18-10

1. Continue from Exercise 18-9 or start AutoCAD.
2. Open one of your previously created drawings. Save the drawing as EX18-10. The EX18-10 file should be active.
3. Create a layer named Revisions, set the color to red, and set the Revisions layer current.
4. Use the **Rectangular** option of the **REVCLLOUD** command to create a revision cloud around a portion of your drawing.
5. Use the **Polygonal** option of the **REVCLLOUD** command to create a revision cloud around a portion of your drawing.
6. Use the **Freehand** option of the **REVCLLOUD** command to create a revision cloud around a portion of your drawing.
7. Experiment using the **Modify** option of the **REVCLLOUD** command to edit the shape of one of the existing revision clouds.
8. Draw a circle around another portion of the drawing, and then convert it to a revision cloud.
9. Resave and close the file.
10. Keep AutoCAD open for the chapter review and problems, or exit AutoCAD if necessary.
