AutoCAD and Its Applications BASICS

Exercise 18-10

- 1. Continue from Exercise 18-9 or start AutoCAD.
- Open one of your previously created drawings. Save the drawing as EX18-10. The EX18-10 file should be active.
- 3. Create a layer named Revisions, set the color to red, and set the Revisions layer current.
- 4. Use the **Rectangular** option of the **REVCLOUD** command to create a revision cloud around a portion of your drawing.
- 5. Use the **Polygonal** option of the **REVCLOUD** command to create a revision cloud around a portion of your drawing.
- 6. Use the **Freehand** option of the **REVCLOUD** command to create a revision cloud around a portion of your drawing.
- 7. Experiment using the **Modify** option of the **REVCLOUD** command to edit the shape of one of the existing revision clouds.
- 8. Draw a circle around another portion of the drawing, and then convert it to a revision cloud.
- 9. Resave and close the file.
- Keep AutoCAD open for the chapter review and problems, or exit AutoCAD if necessary.
