

Exercise 19-1

1. Start AutoCAD if it is not already started.
2. Start a new drawing from scratch or use a decimal-unit template of your choice. Save the drawing as EX19-1.
3. Set up the appropriate layers, including a layer for dimensions.
4. Create a new dimension style called Equal Bilateral.
5. Set the tolerance method, precision, and upper and lower values of the new style similar to the settings shown in Figure 19-11.
6. Draw a 2.75×1.00 rectangle.
7. Add a dimension to the 2.75 side using the Equal Bilateral dimension style.
8. Resave and close the file.
9. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
