AutoCAD and Its Applications BASICS

Exercise 23-5

- 1. Continue from Exercise 23-4 or start AutoCAD.
- 2. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX23-5.
- 3. Draw several closed objects of your own design. Experiment with applying unique gradient fills to each object.
- 4. Resave and close the file.
- 5. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
