

Exercise 33-1

1. Start AutoCAD if it is not already started.
2. Open the Cappuccino Express sheet set created in Exercise 32-2.
3. Activate the **Sheet List** tab of the **Sheet Set Manager** and double-click on the 1 - G-01 sheet to open the file and display the layout.
4. Pick the **Sheet Views** tab and add a view category named Elevations. The sheet set should include a path to the SECTION BUBBLE callout block. As a result, the SECTION BUBBLE callout block should appear and be checked in the **Select the callout blocks to be used in this category:** list box. Pick the **OK** button to create the view category.
5. Add a view category named Floor Plan that also uses the SECTION BUBBLE callout block.
6. Add a view category named Structural that also uses the SECTION BUBBLE callout block.
7. Save and close all open files.
8. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
