

## Exercise 1-9

1. Continue from Exercise 1-8 or start AutoCAD.
2. Start a new drawing from the **Create** page of the **Start Tab**.
3. Open a variety of dialog boxes to observe the dialog box features identified in the previous section.
4. You may make selections or change options in the dialog boxes if you wish, but this is not required. This is just a chance for you to access and explore the contents of dialog boxes.
5. Close the file without saving. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
