

Exercise 3-16

1. Continue from Exercise 3-15 or start AutoCAD.
2. Start a new drawing from scratch or use a template of your choice. Save the drawing as EX3-16.
3. Draw a group of objects similar to the objects shown.

4. Practice using the **Remove** and **Add** selection options by accessing the **ERASE** command, selecting six objects to erase, removing two of the items from the selection set, and then adding three new objects. Proceed to erase the selected items.
5. Access the **ERASE** command and enter the **All** selection option to select all remaining objects.
6. Use the **Remove** option to remove some of the objects from the selection set and then proceed to erase the selected items.
7. Resave and close the file.
8. Keep AutoCAD open for the chapter review and problems, or exit AutoCAD if necessary.
