Exercise 15-7

1. Continue from Exercise 15-6 or start AutoCAD.

2. Start a new drawing from scratch or use a template of your choice.

3. Access the **QuickCalc** palette and evaluate the following expressions. Pay attention to how the result of a calculation appears in the input box. Use the value to form additional expressions.

   A.   5+3

   B.   8–5

   C.   (3*2)*5

   D.   3*2*5

   E.   30/2+5

4. Evaluate the following expressions. Clear the input box after entering each expression.

   A.   6+2*4

   B.   (6+2)*4

5. Clear the history area.

6. Close the drawing without saving.

7. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
