Exercise 15-10

1. Continue from Exercise 15-9 or start AutoCAD.

2. Save a copy of STOP RING REV0.dwg and STOP RING REV1.dwg from the companion website to the folder in which you save the exercises for this chapter.

3. Use the **COMPARE** command to analyze the differences between the two drawings. Specify STOP RING REV0 as the base drawing and STOP RING REV1 as the reference drawing.

4. Use the proper option or command to experiment working with comparison drawings.

   A. Toggle the draw order of objects unique to STOP RING REV0 and STOP RING REV1.

   B. Hide and then redisplay objects unique to STOP RING REV0 and STOP RING REV1. Change the color assigned to STOP RING REV0 and STOP RING REV1 objects.

   C. Hide and then redisplay objects common to both STOP RING REV0 and STOP RING REV1. Change the color assigned to common objects.

   D. Import a single object from STOP RING REV1 into STOP RING REV0.

   E. Toggle the display of all text and revision clouds.

   F. Change the shape of revision clouds to polygonal and increase and decrease the size of the margin between change sets and revision clouds.

   G. Adjust the margin until there are eight total change sets. Use the **Next** (right arrow) and **Previous** (left arrow) buttons to zoom in on change sets.

5. Export a snapshot of the drawing comparison. Save the snapshot using the default file name.

6. Keep AutoCAD open for the chapter review and problems, or exit AutoCAD if necessary.
