

## Exercise 29-5

1. Continue from Exercise 29-4 or start AutoCAD.
2. Open the EX29-1 file you saved during Exercise 29-1.
3. Save a copy of EX29-1 as EX29-5. The EX29-5 file should be active.
4. Make the **A-Size** layout current.
5. Use grip editing or the **STRETCH** command to stretch the floating viewport to form a viewport that is 1/2" away from the border and title block. The layout may hide a portion of the model space drawing.
6. Create a new layer named **VPORT**. Use a yellow color, a Continuous linetype, and the default lineweight.
7. Move the floating viewport to the new **VPORT** layer.
8. Change the title in the title block from EXERCISE 29-1 to EXERCISE 29-5.
9. Resave and close the file.
10. Keep AutoCAD open for the next exercise, or exit AutoCAD if necessary.
