Exercise 1-3

1. Continue from Exercise 1-2 or start AutoCAD.

2. If the Autodesk Exchange window appears, and you have not already done so, deselect the Show this dialog box at startup check box. Then pick the Close button on the Autodesk Exchange window to exit.

3. Select the Workspace Switching flyout on the Quick Access toolbar or the Workspace Switching button on the status bar and confirm that the Drafting & Annotation workspace is active. If it is not active, select the Drafting & Annotation option.

4. Double-click the Application Menu button in the upper-left corner of the AutoCAD window to exit the AutoCAD software, and pick No in the AutoCAD alert box if it appears.

5. Restart AutoCAD for the next exercise if you plan to continue working.
