

## Exercise 1-3

1. Open the drawing Pergola\_bridge.dwg available on the companion website.
2. Using the view cube, display the model in a view that is not isometric.
3. Select one corner of the view cube to display an isometric preset view.
4. Select an edge on the view cube. Notice how this differs from selecting a corner on the view cube.
5. Close the drawing without saving the changes.
