

## Exercise 3-5

1. Open the drawing Pergola\_bridge.dwg provided on the companion website.
2. Select the **NAVSWHEEL** command.
3. Display the Full Navigation wheel.
4. Use the tools and options in this wheel to explore the operation of steering wheels.
  - A. **Center**
  - B. **Zoom** (pick and drag, single click, [Shift] + click)
  - C. **Orbit** ([Ctrl] + click to set pivot point)
  - D. **Pan**
  - E. **Walk** ([Shift] + click to move on Y axis)
  - F. **Look**
  - G. **Up/Down**
  - H. **Rewind**
5. Display the View Object wheel. Experiment with the tools in this wheel. Do any of them function differently from the same tool in the Full Navigation wheel?
6. Display the Tour Building wheel. Experiment with the tools in this wheel. Do any of them function differently from the same tool in the Full Navigation wheel?
7. Close the drawing without saving.
