

## Exercise 6-2

1. Start a new drawing.
  2. Examine the objects shown in the illustration below. Determine the shape of the closed profiles revolved to create the solids. The object on the left has a thin outer section at the end that tapers to a point.
  3. Draw the profiles using your own dimensions. The dimensions are not important.
  4. Revolve the profiles to create solids.
  5. Set the Conceptual visual style current to see if your objects match those shown.
  6. Save the drawing as EX6-2.
- To continue practicing revolving profiles, complete act06-02.dwg available on the companion website.
