

## Exercise 8-5

1. Open the drawing EX08\_05.dwg available on the companion website.
2. Use the **ARRAYRECT** command to array the one vertical column shown in the following illustration.

3. Create a 3D rectangular array of three rows, five columns, and two levels. Make the distance between rows and columns 10', and the distance between levels 12'-8". Create an associative array.

*(Continued on the next page)*

4. Edit the array using the **Properties** palette. Change the number of columns to 7 and the column spacing to 6'-8". See the illustration below.
5. Save the drawing as EX8-5.
