

Exercise 11-5

1. Start a new drawing and create a six-sided, truncated pyramid.
2. Select three vertices on the top and the corresponding vertices on the bottom.
3. Rotate the selected vertices 30° to produce a result similar to that shown in the following illustration.

4. Save the drawing as EX11-5A and close it.

(Continued on the next page)

5. Open drawing EX11-4 created in Exercise 11-4. Edit the two bottom vertices on the front side of the ventilating hood to create the edited object shown in the illustration below.
6. Save the drawing as EX11-5B.
