

## Exercise 14-13

1. Open drawing EX14-12 created in Exercise 14-12.
2. Perform a mass properties analysis of the solid.
  - A. What is the mass?
  - B. What is the volume?
  - C. What are the bounding box dimensions?
  - D. What are the centroid coordinates?
3. Export an SAT file and name it EX14-13.
4. Begin a new drawing. Import the SAT file named EX14-13.
5. Use the **3DPRINT** command to export an STL file and name it EX14-13.
6. Do not save the drawing.
