

Exercise 15-5

1. Open drawing EX15-4 from Exercise 15-4.
2. Open the **Tool Palettes** window.
3. Right-click on the **Tool Palettes** title bar and pick **New Palette** from the shortcut menu.
4. Type the name of the new palette (such as My Visual Styles) in the text box that appears.
5. The new palette is created and active. You are ready to export your visual style onto it.
6. Select the Hand Sketch visual style in the **Visual Styles Manager**.
7. Pick the **Export the Selected Visual Style to the Tool Palette** button.
8. The Hand Sketch visual style is now available in any drawing by using the tool palette.
9. Close the drawing without saving it.
