- 8.5" x 11" paper
- Scissors

Directions:

1. Print
2. Fold paper in half vertically
3. Cut along dashed lines

blogs

Web sites maintained by an individual who posts topics or opinions.

- FOLD -

01 of 28 E-Flash Cards

cell phones

Telephones that allow the user to move around and communicate without a landline.

- FOLD -

02 of 28 E-Flash Cards

compressed files

Computer files that may contain multiple native-format files, such as documents or photographs, and are much smaller in size than the uncompressed versions; they must be decompressed using extraction utility software to access the data they contain.

- FOLD -

03 of 28 E-Flash Cards

conference calling

Verbal communication with three or more people on a telephone call.

- FOLD -

04 of 28 E-Flash Cards

downloading

The process of saving files from a Web site or file transfer protocol (FTP) site.

Chapter 3: Using Technology to Communicate

identity theft

A form of fraud that occurs when somebody takes your personal information and pretends to be you in order to make credit card purchases, withdraw funds from your accounts, or obtain other benefits to which you are entitled.

- FOLD -

08 of 28 E-Flash Cards

instant messaging (IM)

Participants conduct a conversation by keying and sending responses, rather than talking or using video; the conversation usually takes place in real time, but the messages can be stored and retrieved at a later time.

- FOLD -

09 of 28 E-Flash Cards

malware

A program intended to damage, destroy, or steal the data on a computer system.

- FOLD -

10 of 28 E-Flash Cards

online meetings

A remote meeting conducted through desktop sharing and mark up tools; each participant can make suggestions and changes to presentations stored on the leader's computer.

- FOLD -

11 of 28 E-Flash Cards

paggers

Electronic-communication devices that let the user know there is a message waiting.

- FOLD -

12 of 28 E-Flash Cards

podcast

A series of digital media files, released at regular intervals, that contain information related to a specific topic; the files may be audio or video and can be retrieved by users at their convenience.

- FOLD -

13 of 28 E-Flash Cards

professional
networking sites

Similar to social networking sites, they are used by professionals seeking to expand their career networks.

- FOLD -

14 of 28 E-Flash Cards

self-extracting
compressed files

Compressed computer files that can be decompressed by simply double-clicking on the file.

- FOLD -

15 of 28 E-Flash Cards

shareware

Software that can be installed and used, then purchased if you decide to continue using it.

- FOLD -

16 of 28 E-Flash Cards

smartphones

Advanced computerized devices that can be used to check e-mail, surf the Web, take pictures, and talk on the phone.

- FOLD -

17 of 28 E-Flash Cards

social bookmarking

A method of saving bookmarks to a public Web site so others may have access to them.

- FOLD -

18 of 28 E-Flash Cards

social media

An Internet-based tool that allows users to share information within a group.

- FOLD -

19 of 28 E-Flash Cards

social networking sites

Web sites that allow users to share information for the purpose of building relationships within their individual networks.

- FOLD -

20 of 28 E-Flash Cards

teleconferencing

Verbal communication with three or more people on a telephone call.

Chapter 3: Using Technology to Communicate

uploading

Saving files to a Web or FTP site.

- FOLD -

24 of 28 E-Flash Cards

voice mail

Available with any landline or cell phone, it allows callers to leave voice messages that the phone's owner can access at a later time.

- FOLD -

25 of 28 E-Flash Cards

Web 2.0

Technology that allows users to collaborate and interact with each other on the World Wide Web.

- FOLD -

26 of 28 E-Flash Cards

Web seminars

Similar to teleconferencing, but with the added element of a video display; one computer display is shared over the Internet and the others attending the meeting can view the action onscreen; a Web seminar may consist of video, text, and voice communication.

- FOLD -

27 of 28 E-Flash Cards

wireless technology

Used to connect devices without the use of lines, cables, or other type of physical connection.
